MARYTA AND DIEGO HELPED US PLAN THE WEDDING OF OUR DREAMS!

My fiancé and I got engaged in August 2020 and we were excited to start planning our destination wedding for May 2022 at Club Med Cancun. After so much turnover with the wedding planning staff at the resort leaving us with essentially nothing planned in January 2022 (wedding less than 6 months away!), we decided to reach out to other wedding planners in the Cancun area to help us plan our event.

After reading some reviews on wedding wire, we reached out to Maryta and her partner Diego who responded within 24 hours. We had a call the next day and we knew right away that we wanted to hire them. The resort where we got married was challenging to work with and had little to no experience hosting a wedding of our size (~100 people). Maryta and Diego did an incredible job navigating the resort and were so responsive throughout the process – we had a WhatsApp group and we could expect that they would get back to us within 12 hours. Our biggest concern was that all of the good vendors would be booked especially since we were getting married over a popular long weekend. Maryta and Diego helped us find two (!!) incredible bands (one for the rehearsal and one for the cocktail hour after the ceremony), a DJ, an amazing florist, and a spectacular photographer. We are so happy with how everything turned out and give Maryta and Diego so much credit and praise for stepping in and planning the wedding of our dreams in less than 6 months. They truly are the dream team!

The wedding of my dreams

THE WEDDING OF MY DREAMS

Where do I even begin. I hired Diego about six months before my wedding, which there in itself tells you how amazing Diego is. I'm from America and wanted to have my Wedding in Tulum on a moments notice. And Diego was there every step of the way. He was in constant contact with me over WhatsApp through the entirety of this wedding planning process, and made every step easy and fun. I don't ever remember a time being stressed, because Diego was always there to handle everything. It was finally time for my rehearsal dinner and Wedding, I was blown away by the quality of Diego's work. Everything was perfect. Even when little hiccups happened during the wedding, Diego was there to smooth everything out and make it perfect. I would recommend Diego 1,000,000% of the time. He is an amazing person, And the quality and professionalism of his work left me feeling at ease the entire process of planning this wedding. I could go on and on about Diego, but you guys should just hire him and see for yourself. If you want the wedding of your dreams, hire Diego and his team.

AMAZING PLANNER!!!

Diego and his team made it all possible! We gave him pictures of an idea and he transformed them into reality. It all turned out better than we expected. Because of the distance and inability to physically see the decisions being made, trusting the process was the only hard thing to do. However, somehow it all came true.
